## Prof. Dr. SHAZIA NAUMAN HoD RSBM-LHR

Ripah School of Business and Management is one of the top most prominent Business School in Pakistan that offers a friendly, welcoming and conducive environment for all students with a top research faculty known for providing leadership, industrial learning and hands-on experiences for a bright future in academia and corporate sector. Our graduates are equipped with broad-based academic & research knowledge along with analytical and practical skills acquired through internships and community projects. We are preparing our students to be competitive in the 21st century work environment. We have the tradition of respecting students' choices and exploration of their own journeys of intellectual discovery and learning under careful guidance by a dedicated team of outstanding professors who come from some of the world's best universities and are leading experts in their fields of specializations. I welcome you to explore our cutting-edge research and the rich learning opportunities that we offer.

### OVERVIEW

Today's changing socio-business environment and increasing globalization have created an international community demanding global management. In this context, the aim of the Faculty of Management Sciences (FMS) is to provide students with knowledge, skills and attitudes that will help them begin their career anywhere in the world and to ensure that they will have the education to meet their goals and become leaders in their own field. To achieve this, the program provides students with a broad and thorough knowledge of the main features of organization management and current comprehensive analysis of management theory and practices and promotes students understanding with applied innovative learning and teaching practices. Within this context, students get familiar with both the theoretical background and the practical techniques of Business Administration.

### Scope and Job Prospects

- A background in business education gives graduates the necessary knowledge and skills to excel in any organization in the corporate sector as well as the public sector
- BBA and MBA programs are designed to give graduates a holistic overview of management which enables them to start their own successful businesses.
- The bachelor's degree program in Accounting and Finance prepares students for various positions in accounting and financial management. BS Accounting & Finance, graduates can work as a financial accountant, forensic accountant, management accountant, auditor, chief financial officer, financial advisor, and tax specialist.
- For working professionals, our graduate programs provide a comprehensive overview of the field with a highly practical focus that supports their career development goals.
- For project management practitioners and enthusiasts, our programs provide the necessary knowledge and skills that enable them to pursue positions in the industry as well as positions in academia. Our programs are also closely based on PMI's PMBOK Guide which prepares our graduates to pursue PMP and related certifications after completing their studies.
