

5 DAYS PMP EXAM PREPARATION TRAINING

Riphah School of Leadership (RSL) of Faculty of Management Sciences (FMS) of Riphah International University Islamabad is one of the best option for every professional Project Management training based on PMBOK 6th edition and Agile Practice Guide of PMI at Rawalpindi and Islamabad.

Overview

Project Management Professional (PMP) Certification is globally recognized credential that provides project management knowledge and skills for improving the workings of organizations, groups and individuals by enabling them to deliver project successful results. PMP Certification Exam Preparation training at RSL (FMS) is based on the **5 Process Groups and 10 Knowledge Areas** of PMBOK® 6th Edition beside others related project management practices needed to pass the PMP® certification exam and on-the-job skills.

PMP Certification

PMP stands for Project Management Professional. This certification is offered by Project Management Institute (PMI) of United States of America. PMP Certification is a globally recognized and highly demanded course in Pakistan and across the globe. This certification is the proof of knowledge, experience and skills of a project manager.

Project Management is globally recognized as one of the best ways to enhance the professional working of organizations, groups and individuals to achieve their goals efficiently and effectively. It helps to get the project tasks done despite tight time schedule, limited budget and challenging quality assurance standards. Project Management compels managers to focus on their goals and objectives, improving efficiency and contributing to the organizational success.

Project Management Institute (PMI - USA)

Project Management Institute (PMI) is globally recognized and authorized professional educational institute to certify people as Project Management Professionals (PMP). Certification is based on examination conducted by PMI. After passing this certification, marvelous career opportunities for people knock at their door step. It is also certified that project manager can handle and execute the project assigned in different fields with success despite project triple constraints of time, budget and quality.

Importance of PMP Certification

Job market for PMP experts is widening in Pakistan in the context of the CPEC (China Pakistan Economic Corridor). RSL (FMS) is already conducting MS in Project management as a regular educational degree program in both Rawalpindi and Islamabad campuses which is the most popular among scholars and organizations. Project management jobs are eminent for being extensively demanding due to the increasing infra structure demand and growing economy of this country. Thus, despite a serious competition around the world for jobs, PMP Certified professionals get visibility as compared to those who don't have PMP Certification.

RSL (FMS) is the best training institute for PMP certification in Rawalpindi and Islamabad. Acquire premium quality PMP Training from academics and industry experts and PMP professionals.
